Phone Calls

Smart Communications offers different calling account options to allow you to pay for inmate phone calls in advance and stay connected.

Prepaid Collect (PPC) - allows family and friends to pay for collect calls they receive from an inmate in advance. The PPC account holder decides which phone numbers are allowed and how much they want to spend on receiving collect calls.

Voicemail Exchange (VMX™) - PPC calling account funds can also be used to leave voicemails for an inmate.

PIN Debit - family and friends can deposit funds directly into PIN Debit accounts. These account funds are owned by the inmate and can be used to pay for calls they place to any facility-approved phone number.

To prevent disconnection, avoid the following actions during a call:

- Press any buttons on phone's dial pad
- Attempt to transfer or perform a 3-way call
- Stop the conversation or place call on hold
- Use or answer "call waiting"

Remote Video Visitation

SmartVisit Video Visitation allows you to have video calls with an inmate from the comfort and privacy of your own PC with web camera and internet connection.

- Include your loved one in everyday activities, birthdays, holiday gatherings, etc.
- Saves time, expense and hassle of traveling to the facility
- More comfortable visiting experience for younger children

Messaging & Photo Delivery

SmartInmate™ is a two-way electronic messaging service that allows you to send and receive messages from your smartphone or PC. Inmates can send and receive messages on secure/password protected kiosks or tablets stationed at the institution.

SmartInmate™ also provides a one-way photo delivery service. Photos can be accessed by inmates an unlimited number of times.
